Subject: Request for registration of domain name "glowai.com.np"

Dear Sir/Madam,

I am writing this letter to request the registration of the domain name "glowai.com.np" on my behalf.

I am a citizen of Nepal and wish to register this domain name for my personal project website, which provides interactive digital style consultations and style intelligence tools. The name "GlowAI" represents the core concept of the platform, and I would like to host it under the official Nepalese namespace.

I have attached a copy of my Nepalese citizenship certificate along with this application for verification purposes.

I hope for your kind approval of this domain name registration. Thank you for your support and cooperation.

Sincerely,
Priyanka Ghimire
